SUMMARY

A Computer Science student with a strong background in software and web development and practical experience with modern technologies. Actively involved in hackathons and technical clubs, with hands-on skills in various programming languages and frameworks. Eager to apply technical abilities in innovative and challenging projects

EDUCATION

Bachelors of Engineering, Computer Science	Graduating Jul 2025
9.27 CGPA	
CMR Institute of Technology, Bengaluru	
Pre – University Course, Science	Jul 2021
62.80%	
Ramdoot International School, Ghazipur	
SSLC (CBSE)	May 2019
92.33%	
Glorious Public School, Ghazipur	

TECHNICAL SKILLS

Programming: Java, Python, JavaScript

Frontend: HTML/CSS, Bootstrap, Tailwind CSS, React.js, jQuery

Backend: Node.js, Express.js

Database: MySQL, MongoDB

Software: VS Code, PyCharm, Eclipse, Jupyter Notebook, Replit, Postman, Git

Certifications: Web Development Bootcamp on Udemy – November 2023

PROFESSIONAL EXPERIENCE

InternPE, Jaipur: Web Development Intern	Sep 2023 – Nov 2023
- Developed an e-commerce platform, and interactive games like Connect 4 and Tic-Tac-Toe - Utilized HTML, CSS, and JavaScript to create and maintain responsive web applications - Ensured cross-device compatibility to enhance user experience	
COE - Intelligent Human Computer Interaction, CMRIT: Python Developer Intern	Oct. 2022
- Developed Flipkart automation using Selenium and Python - Implemented functionality to automate tasks such as product search, filtering, and order placement - Gained experience in advanced Python programming and web automation using Selenium	

ACADEMIC PROJECTS

Vehicle Sales Tracker React.js, Tailwind CSS, Node.js, Express, MongoDB	Jan 2024 – Feb 2024
Collaborated with a team to develop a vehicle sales tracking website using the MERN Stack.	
- Displayed sales data attractively for improved user interaction and insights (MongoDB, Chart.js) - Managed database efficiently to ensure accurate and reliable data handling - Achieved recognition as "Best Presentation" out of 15 teams by the faculty audience	
Student Management System React.js, Redux, Tailwind CSS, Node.js, Express.js, MongoDB	Jun 2024 – Jul 2024
Led a team to build a website facilitating food ordering and delivery services.	
- Designed and implemented frontend components for a user-friendly interface - Developed admin, teacher, and student logins with secure authentication - Managed attendance and marks efficiently, ensuring accurate tracking and reporting	

ACHIEVEMENTS

- Participated in Smart India Hackathon(SIH) and received a certificate.
- Successfully hosted several events on web development at CMR Institute of Technology, Bengaluru.
- Achieved first prize at a mini project exhibition at CMR Institute of Technology, Bengaluru.
